# ABOUT BEE LINE

## Our Story

*Bee Line is a privately held, Certified Women-Owned commercial cleaning business headquartered in Chicago, Illinois. We are one of the only Certified, Medical-Grade Cleaning companies in the region, and bring that same rigor to every sector we service.*

## Our Differentiators

**Medical Cleaning:** We're experts in medical-grade cleaning, with a fully built-out training suite at our HQ.

**Customers First:** We have an online work order system, on-call staff, & consistent communication to guarantee the highest quality.

**Management:** We have certified managers to train all staff on infection prevention protocols.

**Hiring Practices:** Our dedicated recruiting team performs extensive background checks & promotes employees organically.

**Project Capabilities:** We have a full team dedicated to terminal cleaning, floor care, and much more, so your facility looks great no matter what.

# MEDICAL GRADE CLEANING

*Our management is CMIP (Certificate of Mastery in Infection Prevention), CHESP (Certified Health Care Environmental Services Professional), and CSCT (Certified Surgical Cleaning Technician) certified, ensuring all staff are trained in top-tier infection prevention protocols.*

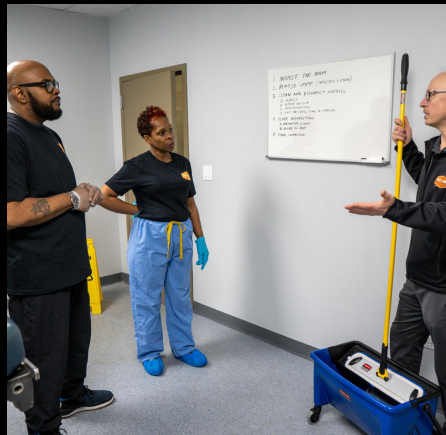

## Black Light Audit Technology

We are one of the few commercial cleaning companies to use High-Level Black Light auditing to ensure total disinfection of all healthcare facilities. Through in-depth review and monitoring, we can guarantee that your space has been left spotless.

# MEDICAL CLEANING TRAINING CENTER

*At Bee Line, we have built out a training suite that includes an operating room, exam room, and lavatory that mimics the dimensions, equipment, design, and functionality of a healthcare facility to prepare our cleaning force for the frontlines.*

## Our Training Includes

- **Mock Cleaning Simulations** to test knowledge around High Touch Points, chemical usage, application techniques, and sanitation competencies
- **Testing Leadership** on their knowledge of all protocols, as well as their teaching skills
- **Education on High Touch Points** and commonly overlooked spots throughout the medical facility
- **Demonstration of Proper Personal Protective Equipment**, including donning and doffing in controlled environments

# BEE LINE'S TRAINING PROTOCOL

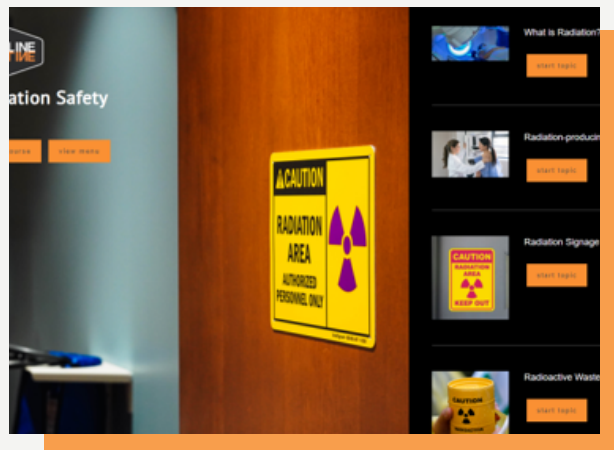

## Certified Management

Our certified management carries vast knowledge in microbiology, precautionary safety measures, and infection prevention throughout all stages of disinfection.

## Learning Management System

We utilize Brainier's Learning Management System to streamline training right to our team members. Our clients have access to training records in case of Joint Commission audits.

## Hands-On Training

Bee Line has an extensive hands-on training program to ensure the knowledge they learned in our digital course is retained and will be implemented correctly on the job.

# TRUSTED BY TOP HEALTHCARE NETWORKS

"My infection rate has decreased to minimal from Bee Line's black light audits and how you train your staff."

**- Facilities Manager**

"I would like to thank all of those involved in assisting our clinic in the continuation of providing our patients with safe care."

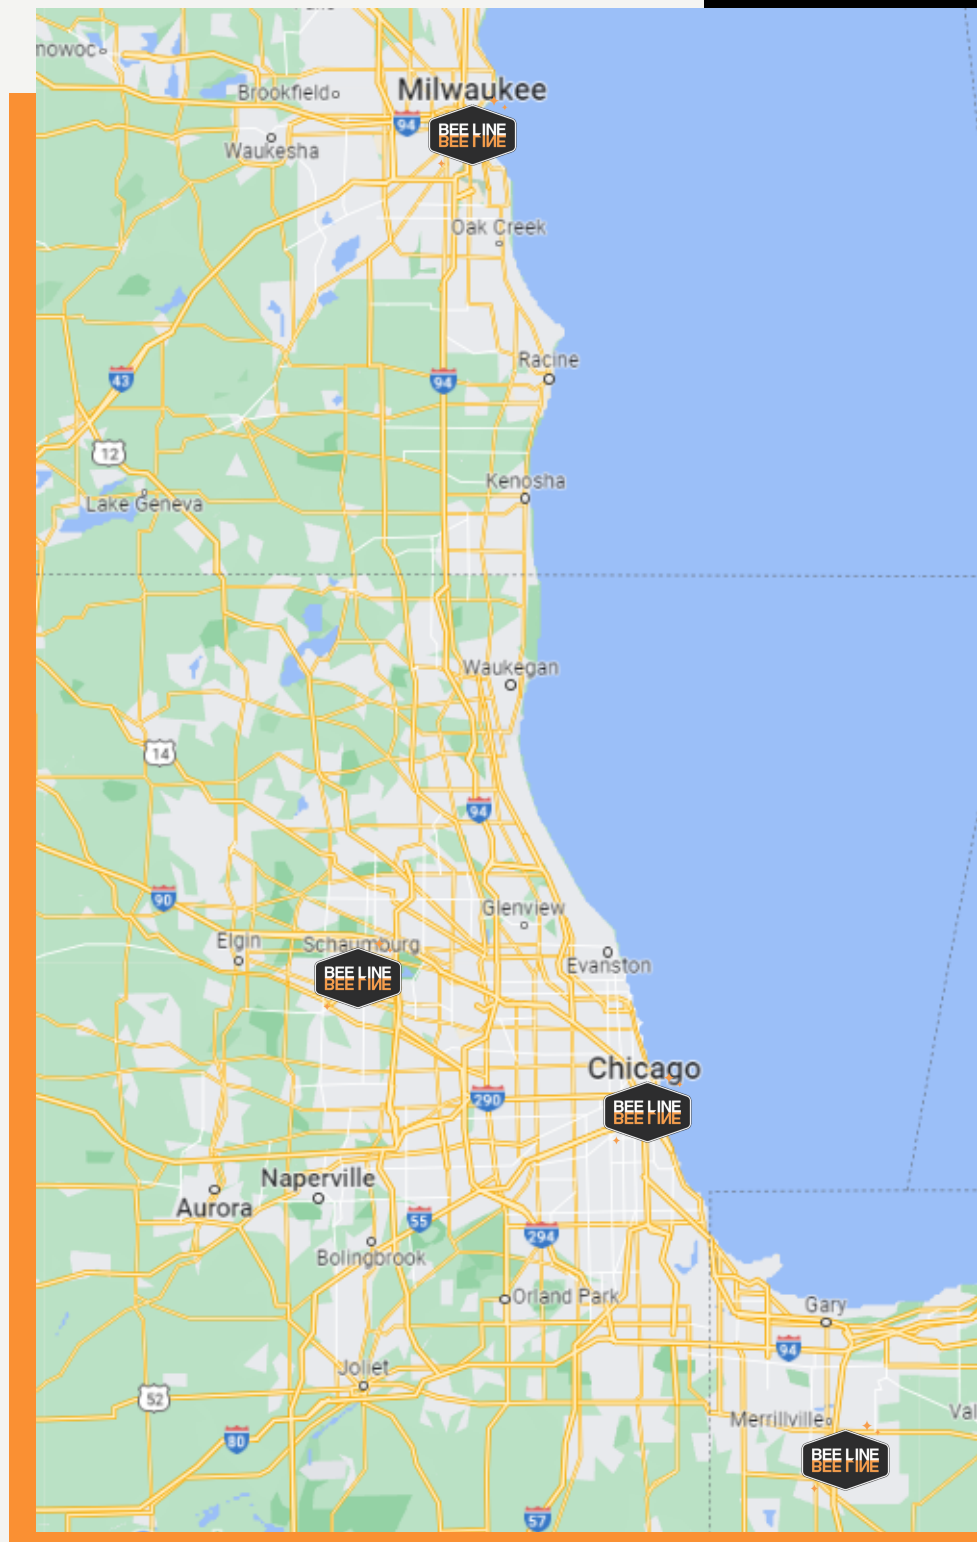

**- Clinical Coordinator**

"Your team's attention to detail is greatly appreciated. As we get ready for The Joint Commission to visit, we are trying to be on top of every aspect."

**- Practice Manager**

"I cannot thank you and your team enough! You saved the day for our patients who planned their lives around their surgeries today."

**- Chief Executive Officer**
